

Disco Trash Music aka Felix Neuman and Christian Schnall are one of the hottest new acts to come out of the bubbling German electro scene right now. Their own club night at the renowned Scala Club in Regensburg in Southern Germany is regularly packed with over 500 people, so these two know their stuff when it comes to roof-raising rave madness.

Formed in 2007, Disco Trash Music do not have typical techno-DJ biographies. Both Fred and Randy first came in contact with electronic club music somewhat by accident after having spent years making noise in guitar bands. And they never looked back.

Inspired by the sound of chainsaws, 90s rave and Miami ghetto bass they quickly took their new passion to the studio. Their first bootlegs and remixes saw them showered with blog love and it was not long before the world received some original Disco Trash Music in the form of their debut single "Neon Disco", released on Freakz Me Out Records, complete with an all-star remix package coming from Moonbootica, Alex Gopher, Autokratz and Daniel Dexter. The single earned them heavyweight DJ support from the likes of Digitalism, Larry Tee, Malente, Azzido Da Bass and Evil Nine, BBC Radio One airplay, a 9/10 review in IDJ Magazine as well as a Top 10 position in the German Club Chart DCC.

Unsurprisingly, they now have a whole bunch of high-profile remixes lined up. Bonaparte, Markus Lange & Daniel Dexter, Moston & Malente, Play Paul, TAI, Azzido Da Bass & Jence and Sharam Jey are among the artists who are getting the Disco Trash Music treatment while the duo releases new tracks on several international record labels within the next few months - Lee Mortimer's Wearhouse Music (UK), Absolut Freak Records (FR), RIOT RIOT (GER) etc. On Stage, Disco Trash Music like to mash it up bastard style, dropping bombs left and right in a fast-paced show, with cheeky cuts from pop, funk and rock hits over a solid foundation of heavy- bass ghetto rave and fidget house.

Destroy the f*!'king dancefloor!!
